## OUR HISTORY

OrePac is a family-owned and operated business, founded by the Hart family in 1976. Through strong leadership and a commitment to success, the company has grown into one of the premier distributors in the building industry.

Trust, integrity, and a dedication to excellence are the values most important to OrePac. That commitment can be found in the services we offer, the quality of the products we provide, and the way we treat our employees and customers. This dedication to our markets has enabled us to make a positive impact on the shelter industry and the communities we serve.

## What to Know About Builders Choice Wood Doors

### Easy Online Ordering with OrePac Marketplace

At OrePac, our goal is to Make Complicated Simple™. That's why we've created an industry-leading configurator to simplify the door ordering process for our dealers. Talk to your OrePac Sales Representative to find out more about this easy and time-saving tool.

### Turn Your Door Style into a Versatile Pocket Door

The CS Cavity Slider™ is a practical solution for those areas where there is not enough space for a swinging door. In addition to its space saving attributes in restrooms, hallways and laundries, it can be used with confidence for architectural feature openings around your project.

### Complete the Look with Builders Choice Moulding

We are proud to offer a wide selection of moulding and millwork to complete your home project. Whether you're building a new home, remodeling, or simply updating a room, Builders Choice offers millwork for all professional and DIY applications. Browse our moulding and millwork catalogs to find moulding in architectural profiles and wood species that complement any style of home.
